Objectives:

- Assessment, Refinement & Demonstration of Technologies/Products
- Organizing vocational / skill based trainings to farmers, rural youth and extension functionaries
- Establishing resource / knowledge centre in agriculture & allied sectors

Technical Programme in brief

1. Conducting "On farm Testing" (OFT) for identifying technologies in terms of location specific sustainable land use systems
 - a. High density planting in Non-Bt.cotton, Herbicide use in direct seeded paddy
 - b. Srinidhi poultry rearing, Evaluation of Total mixed ration (TMR)
 - c. Drudgery reduction for women, Nutrition for better living
 - d. Conventional breeding of common carp, Resource based composite fish culture
2. Organizing frontline demonstrations (FLD) to generate production data and feedback information, viz.,
 - a. Post-emergence herbicides usage in cotton, Cold tolerant paddy variety
 - b. Integrated health management in sheep, Prevention of mastitis
 - c. Value addition of traditional foods
 - d. Post-harvest fish techniques, Murrel culture in village tanks
3. Organizing trainings to update the extension personnel with emerging advances in agricultural research on regular basis and short term vocational training courses in agriculture and allied vocations for the farmers and rural youth with emphasis on "learning by doing" for higher production on farms and generating self employment.

Activities

- Acts as a resource centre on farm technologies and referral services.
- Conducts on farm trails and front line demonstrations at farmer's fields.
- Organises awareness programmes and need based training programmes to the farm community.
- Conducts diagnostic visits to the farmer's fields.
- Develops need based audio visual and printed documentation and deliver television and radio programmes for the benefit of the farmers.

Important Events

- Scientific Advisory Comity Meeting 2013, 2014
- Mini Kisan Mela
